

LAMA LAND

Can you sound like a llama?

HUMMMM

Llamas are very quiet and often communicate by humming.

WHOOSH

Llamas can run 35 miles per hour.

SPLAT

Angry llamas stick out their tongues and spit.

GULP

Llamas have 3 stomach compartments.

Help Lluna protect her flock by finding the 6 coyotes

Guard llamas protect sheep from predators such as coyotes.

Llama eyes can look in different directions. They can see 260 degrees (twice the range of humans).

Without moving your head, how far can you see?
